

**Amendment to the Claims:**

This listing of claims will replace all prior versions, and listing of claims in the application.

Please amend Claims 1, 6 and 7 as follows:

**Listing of Claims:**

1. (Currently Amended) A portable electronic apparatus (1) whose housing (2) is provided with a housing part that is constructed as a lever element (3), which is integrally arranged in a wall of the housing and is arranged to cover at least partly a battery pack, said lever element being arranged to bend a material of lower hardness, external to the portable electronic apparatus, by way of a leverage effect.
2. (Cancelled)
3. (Original) A portable electronic apparatus as claimed in claim 1, characterized in that the lever element is arranged to open metal closures and is connected to the housing.
4. (Original) A portable electronic apparatus as claimed in claim 1, characterized in that the lever element is made of metal and/or ceramic.
5. (Original) A portable electronic apparatus as claimed in claim 1, characterized in that the lever element is constructed as an angled metal plate so as to cover a battery pack.
6. (Currently Amended) A mobile telephone (1) which includes a housing (2), whose housing (2) is provided with a housing part that is constructed as a lever element (3), which is integrally embedded in a wall of the housing and is arranged to cover at least partly a battery pack, and said lever element being arranged to bend a material of lower hardness, external to the portable electronic apparatus, by way of a leverage effect.
7. (Currently Amended) A mobile telephone housing, at the rear of which there is provided a lever element (3) which offers protection against shocks and pressure and also protects an accumulator, whereby the housing (2) is provided with a housing part that is constructed as a lever element (3), which is integrally arranged in a wall of the housing and is arranged to cover at least partly a battery

pack, said lever element being arranged to bend a material of lower hardness, external to the portable electronic apparatus, by way of a leverage effect.
